

Establish a positive safety culture for new employees!

Safe Start

New Employee Safety Orientation

Employees with less than 1 year of service account for 40% of recordable injuries, 5 times higher than experienced workers

\$37K – average cost per medically consulted injury

Overexertion accounts for over 25% of injury claims and 40% of lost-time days

Almost 20% of overexertion claims involve back injuries

Another 20% of injuries are due to slips, trips and falls

It is more important now than ever to get your new employees off to a great start with your organization.

With Fox Valley Safety & Training's **Safe Start** Program, you can give them the necessary basic safety awareness to protect themselves, and in turn, your company's best interests as well.

- Show your concern for employee welfare
- Reduce employee injuries & incidents
- Cost effective
- Schedule flexibility
- Customized topics & materials
- Document compliance
- Clarity of company policies

Create a core value of safety in your employees and company – call us today!
